The T helper cells (T h cells), also known as CD4 + cells, are a type of T cell that play an important role in the immune system, particularly in the adaptive immune system. They help the activity of other immune cells by releasing T cell cytokines. These cells help suppress or regulate immune responses. They are essential in B cell antibody class switching, in the activation and growth of ...

Type Two Overview. We have named personality type Two The Helper because people of this type are either the most genuinely helpful to other people or, when they are less healthy they are the most highly invested in seeing themselves as helpful. Being generous and going out of their way for others makes Twos feel that theirs is the richest, most meaningful way to live.
