Year after the year, the same pressures attend exam revision. Each year teachers try the old favourites, alongside a few new revision strategies to keep our students interested. Happily, we now have a wealth of evidence to support some revision strategies over others as we approach the revision stretch. We know that students are not the most reliable when it comes to judging their own learning ...

The term "learning styles" refers to the concept that individuals differ in regard to what mode of instruction or study is most effective for them. Proponents of learning-style assessment contend that optimal instruction requires diagnosing individuals' learning style and tailoring instruction accordingly. Assessments of learning style typically ask people to evaluate what sort of ...
