How To Check Pulse

Quick Summary. To check your pulse by hand, find a stopwatch, timer, or clock with a second hand. Then, gently press your index and third finger on your neck to the side of your windpipe. Once you feel your heartbeat, start your timer or keep an eye on your watch while you count the number of heartbeats for 30 seconds.

How to Check Your Pulse: 10 Steps (with Pictures) - wikiHow

Here are the simple steps needed to take a pulse at the wrist. This is known as the radial pulse: Turn one hand over, so it is palm-side up. Use the other hand to place two fingertips gently in the groove on the forearm, down from the fold of the wrist and about an inch along from the base of the thumb.

How to check your pulse - Medical News Today

You gain the most benefits when you exercise in your "target heart rate zone." Usually, this is when your exercise heart rate (pulse) is 60%-80% of your maximum heart rate. In some cases, your doctor may decrease your target heart rate zone to begin with 50%. Check with your doctor before starting an exercise program.

Heart Rate Monitoring & Pulse Measurement: Max & Target ...

Method 1: Radial pulse. To check your pulse using this method, you'll be finding the radial artery. Place your pointer and middle fingers on the inside of your opposite wrist just below the thumb. Don't use your thumb to check your pulse, as the artery in your thumb can make it harder to count accurately.

How to Check Heart Rate: 5 Methods for Taking Your Pulse

The pulse rate is an indication that the heart is working and the organism has life. This is the reason pulse rate is also called as heart rate. Check out these related Mahalo pages:

How to Take a Pulse

To take your pulse rate: Find a watch with a second hand and place it on your right wrist or on the table next to your left hand. After finding your pulse, count the number of beats for 20 seconds. Multiply by 3 to get your heart rate, or beats per minute (or just count for 60 seconds for a math-free option).

How to Take Your Own Pulse: Something Everyone Should Know ...

Checking pulse over the carotid artery. To check your pulse over your carotid artery, place your index and middle fingers on your neck to the side of your windpipe. When you feel your pulse, look at your watch and count the number of beats in 10 seconds. Multiply this number by 6 to get your heart rate per minute.

Checking pulse over the carotid artery - Mayo Clinic

Finding your pulse. The easiest places to find your pulse are: Put one of your hands out so you're looking at your palm. Use the first finger (your index finger) and middle finger of your other hand and place the pads of these fingers on the inside of your wrist, at the base of your thumb. Press lightly and feel the pulse.

How to check your pulse - Heart Health - British Heart ...

To measure your heart rate, simply check your pulse. Place your index and third fingers on your neck to the side of your windpipe. To check your pulse at your wrist, place two fingers between the bone and the tendon over your radial artery — which is located on the thumb side of your wrist. When you feel your...

Heart rate: What's normal? - Mayo Clinic

Check the dorsalis pedis (DP) pulse. The DP pulse can be used to check for some of the same complications as the popliteal pulse. If you cannot feel the popliteal pulse, look for a pulse in the
