Senior Health: Tips for Successful Aging - MedicineNet

Ageing or aging (see spelling differences) is the process of becoming older. The term refers especially to human beings, many animals, and fungi, whereas for example bacteria, perennial plants and some simple animals are potentially biologically immortal. In the broader sense, ageing can refer to single cells within an organism which have ceased dividing (cellular senescence) or to the ...

The barriers to receiving effective mental health treatment are nothing short of daunting (US DHHS, 1999). This chapter describes the constellation of barriers deterring use of mental health treatment by people who are either suicidal or who have major risk factors for suicidality: a mental disorder 1 or a past suicide attempt (Chapters 2, 3).. A close examination of barriers to treatment is ...
