

Msp Business Model

Msp Business Model

Managed services is the practice of outsourcing on a proactive basis certain processes and functions intended to improve operations and cut expenses. It is an alternative to the break/fix or on-demand outsourcing model where the service provider performs on-demand services and bills the customer only for the work done.. Under this subscription model, the client or customer is the entity that ...

Agenda - Connect IT 2020

The Software as a Service (SaaS) model continues to gain traction across all corners of the business world, and for good reason. Also known as on-demand software, hosted software or web-based software, SaaS eschews traditional software installation, maintenance and management approaches in favor of delivering cloud-based applications via the internet.
