PowerScan PD9530/PBT9500/PM9500 - Sensor Centre

CAUTION Always charge the battery at 32° - 104°F (0° - 40°C) temperature range. Use only the authorized power supplies, battery pack, chargers, and docks supplied by your Datalogic reseller. The use of any other power supplies can damage the device and void your warranty. Do not disassemble or modify the battery.

PowerScan PD9530/PBT9500/PM9500 - Barcodescanner

Datalogic's PowerScan™ PD9531 area imager, the latest generation of rugged 2D area imagers, is the perfect answer for these applications. An intuitive and effortless scanning experience is the target of the PowerScan™ 9500 family.

PowerScan PD9500 - Handheld Barcode Scanners - Datalogic

The PowerScan PM9500-DPM is a hybrid device, meaning that it is capable of reading standard codes and is specialized to read DPM codes. It behaves like a high density scanner and the depth-of-field performance is shorter compared to the other PowerScan PM9500 models.
