### **Syndrome W A Woman S**

Battered woman syndrome (BWS) emerged in the 1990s from several murder cases in England in which women had killed violent partners in response to what they claimed was cumulative abuse, rather than in response to a single provocative act. Feminist groups, particularly Southall Black Sisters and Justice for Women, challenged the legal definition of provocation, and in a series of appeals against ...

Premenstrual syndrome (PMS) is a combination of symptoms that many women get about a week or two before their period. Most women, over 90%, say they get some premenstrual symptoms, such as bloating, headaches, and moodiness. 3 For some women, these symptoms may be so severe that they miss work or school, but other women are not bothered by milder symptoms.
