Eating disorders are complex and affect all kinds of people. Risk factors for all eating disorders involve a range of biological, psychological, and sociocultural issues. These factors may interact differently in different people, so two people with the same eating disorder can have very diverse perspectives, experiences, and symptoms.

Risk Factors | National Eating Disorders Association

Up to half of Alzheimer's disease cases worldwide are potentially attributable to seven preventable risk factors, a new study suggests. The findings show that Alzheimer's cases could be reduced if ...
